 To Honorable Magistrate Judge Suzanne Mitchell

Your honor I have enclosed 4 Exhibits that plaintiff hopes will be helpful in rendering a decision for plaintiff, added to the already numerous submission previously submitted.

Exhibit #1 is the Approve (National) Transgender Commissary List and the court can see that blush is clearly identified as available.

The Approving Authority Central office, Transgender Executive Council. Captain Bernier

however believes he does not have to comply due to his absurd, unintelligent lazy argument that blush changes the

appearance of the inmate, to be unrecognizable. Blush covers a small portion of each cheek does not change skin color size or shape of face nor changes eye color. See Exhibit

4 FCI Butner LSCI Allows purchase so, it changes beyond identification at Deven's FMC

But not at Butner FCI? Part of this program I am in says be honest with all, this on its face is dishonest and not in keeping with program rules.

Exhibits 2 and 3 are the different approved purchase list at Deven FMC, court will notice, foundation and eye shadow

is Approved for Purchase. Again we are ask to believe that blush has more effects on changing identifying features than does foundation and blush. This is also their reasoning for not allowing mascara and lipstick. To entertain those arguments, and consider even remotely the possibility of it being true requires my IQ to drop to -02.

Plaintiff believes that these many submissions and previous rulings is ~~quantitative~~ enough to justify the Court to rule in Plaintiffs favor. As none of the Parties involved consider themselves bound by Court decisions and the rules that they enforce. Rules for thee and not for me. Also Plaintiff believes that these submissions have surely demonstrated to the Court that the SAME parties willingness to ignore the Constitutional rights, of those in the BOP and US Marshall's Care. Therefore the Plaintiff pleads that the Court will find for the plaintiff and order judgment to be followed.

immediately.

Plaintiff Thanks the Court for
it labors to ensure plaintiff gets justice
and That Those who violate inmates
Constitutional rights are held to
account.

Sincerely,
